

David Adeshina

Mobile Developer (Flutter & Dart) · 4+ Years

Toronto, Ontario · dadeshina4@gmail.com · linkedin.com/in/dadeshina4 · github.com/DarkShadow77 ·

darkshadow77.github.io/Portfolio

Eligible to work in Canada

Mobile developer with 4+ years building and shipping production Flutter apps to the App Store and Google Play across fintech, social and real-time platforms. Eleven apps live in the stores, three of them built solo end to end — one past 50,000 installs. I work in Clean Architecture with BLoC/Cubit and Riverpod, build real-time features on Socket.io and Firebase, and own releases end to end through GitHub Actions and Codemagic. On one release I cut the binary from 300 MB+ to under 100 MB with Unity embedded and brought the crash rate down with it. A postgraduate background in cybersecurity shapes how I handle authentication, token refresh and role-based access, and I have set feature direction and led small teams where the work called for it. Now based in Toronto and open to mobile roles from intermediate through lead.

— SHIPPED APPLICATIONS

Bravoo	Learn-to-earn skill missions and rewards · Sole dev · 5K+ installs	Play · iOS
Eonace	Digital banking wallet and bill payments · Sole dev · 50K+ installs, 4.3★	Play · iOS
Stakecut	Live scores, fantasy and licensed gaming · Sole dev · 300 MB → <100 MB	Play · iOS
Misan by Bamboo	Cross-border payments across 15+ countries · Team of 3	Play · iOS
Misan Business	Business accounts on the Misan platform · Team of 3	Play · iOS
BuzinessHours	Live business hours and availability	Play · iOS

Also shipped — Thressford Wallet, Thressford Wallet Admin, CoinPadi, Niklaar Deals, BetAlmighty Premium.

— CORE SKILLS

CORE	Dart, Flutter, iOS, Android
WEB & NATIVE	TypeScript, JavaScript, React.js, Kotlin / Swift bridging
ARCHITECTURE	Clean Architecture, Feature-first modular, Repository pattern, GetIt DI, SOLID
STATE	BLoC / Cubit, Riverpod, GetX, Dartz, Equatable
BACKEND	REST APIs, Dio, Socket.io, Firebase (FCM, Auth), Supabase, PostgreSQL RPC
RELEASE & SECURITY	GitHub Actions, Codemagic, CI/CD, Store submission, Testing, Secure auth, RBAC

— EXPERIENCE

Flutter Developer · TekMadeEasy

Full-time · Oct 2025 – Present

- Architect cross-platform Flutter apps on Clean Architecture with a modular, feature-based structure.
- Lead BLoC implementation across complex, high-traffic user flows.
- Raise performance via widget-rebuild reduction, memory profiling, lazy loading and render tuning.

Flutter Developer · BuzinessHours

Contract · Jun 2024 – Feb 2026

- Shipped Socket.io real-time messaging with Firebase Cloud Messaging push and deep linking.
- Delivered multiple store releases; improved maintainability with modular GetX architecture.

Flutter Developer · SMARTROB Technologies

Contract · Jul 2025 – Dec 2025

- Set technical direction for feature work, designing Flutter apps on Clean Architecture.
- Implemented secure authentication and role-based authorization across the mobile stack.
- Led BLoC state management, background processing, push notifications and deep linking.

Lead Flutter Developer · Tek Haven Solution

Full-time · May 2024 – Dec 2025

- Led delivery of enterprise mobile apps, building scalable API layers and reusable logic.
- Integrated Unity into Flutter, then cut the binary from 300 MB+ to under 100 MB.
- Managed Android and iOS release cycles, coordinating QA and store deployment.

— EARLIER EXPERIENCE

Software Engineer Trainee · SAIL Innovation Lab

Nov 2023 – Apr 2024

Built React.js and TypeScript web apps, integrated third-party APIs, worked in Agile teams.

Flutter Developer · BerryStamp

Oct 2023 – May 2024

Contributed across design and development, and led the team in the manager's absence.

Flutter Developer · Eonace

Feb 2023 – Aug 2023

Built cross-platform UI; integrated push, data sync and REST APIs, shipping to both stores.

— EDUCATION & CERTIFICATIONS

The University of Texas at Austin — Postgraduate Programme, Cybersecurity

2023–2024

Middlesex University — BSc, Information Technology

2022–2023

Flutter & Dart — The Complete Guide — Udemy

Certification

Foundations of Cybersecurity — Coursera
